**DETAILED ACTION**  
***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12 are drawn to a pressure sensitive adhesive sheet, classified in class 428, subclasses 343 and 345.
- II. Claims 13-19 are drawn to a method of producing a pressure sensitive adhesive sheet, classified in class 427, subclass various.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product (i.e. pressure sensitive adhesive sheet) can be made by another and materially different process. For example, by placing a coating mixture (i.e. urethane polymer and vinyl polymer) onto a release liner and then irradiating the coating mixture. Next, transferring the release liner with cured coating layer onto the layer of pressure sensitive adhesive. Finally, removing the release liner.
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1771

3. A telephone call was made to Mr. Alan Kasper on May 5<sup>th</sup> 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
